Dear Wellington-Napoleon R-IX School District Family,

I hope you and your family are having a great summer. I am wanting to let you know of an important update regarding the school district's student information system. Our previous student information system vendor, Tyler SIS, is phasing out of the education market, which means all of their customers had to make a change and select a new platform. After careful consideration and evaluation, we have decided to transition to a new system called TeacherEase (Common Goal Systems) for the 2024-2025 school year.

You will no longer be able to access your child's account in Tyler SIS. All records and information are being saved and will be transferred to TeacherEase. We will be sending you detailed instructions on how to create your TeacherEase account and access the parent portal. Additionally we will be transitioning to online student registration for the 2024-2025 school year. **Please look for an email on Monday, July 22 from no-reply@teacherease.com detailing account setup and online enrollment instructions.**

Teacher Ease offers a secure online portal that allows you to access your child's grades, attendance records, and assignments. This feature will enable you to stay up-to-date on their academic progress and make informed decisions regarding their education. They offer a mobile website and application for iOS and Android devices, allowing you to access information about your child's education anytime, anywhere.

We understand that any change in systems can be challenging, but we are committed to ensuring a smooth transition for parents and guardians. We are confident that TeacherEase will enhance our ability to serve you and your child's education. We appreciate your support and understanding during this transition period. If you have any questions or concerns, please contact info@wntigers.net or call the technology office at 816-240-2621 ext. 258.

We're looking forward to a successful transition and an overall improved user experience with TeacherEase. As always, thank you for your continued support of our students, staff, and school district.

Yours in Education,

Brad Briscoe Ed. D.
